DETAILED ACTION

Status of the Claims

1. Amendment filed March 26, 2007 is acknowledged. Claim 1 has been amended.
Claim 24 has been added. Claims 1-13 and 24 are pending.

Upon further review the rejection under 35 U.S.C. 112, second paragraph is withdrawn because: the wetting layer is disposed between the barrier layer and the bump, thus claim 2 is complied with the second paragraph requirement.

Allowable Subject Matter

2. Claims 1-13 and 24 are allowed.
3. The following is an examiner's statement of reasons for allowance: prior art of record fail to teach a wafer structure in the combination of the limitations as claimed including: the first metallic layer permanently covering a portion of the first passivation layer and the UBM layer above each of the bonding pads is detached from the others; and second passivation layer permanently disposed on the first passivation layer, wherein the second metallic layer of the UBM layer does not cover the second passivation layer, and the second passivation layer covers a peripheral portion of the first metallic layer without covering the second metallic layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
